### **Journalists: Put the Leaders of the Fuel Cell Industry at Your Fingertips**

(Washington D.C. – June 3, 2002) The second edition of the U.S. Fuel Cell Council's *Media Guide*, a detailed listing of the organizations leading the fuel cell industry, is now available.

“Demand for information on the state of the industry is booming. Our members are ready to respond with information on their activities,” said USFCC Executive Director Robert Rose. “Our *Media Guide* tells you who the industry leaders are, and helps you get in touch with the right people when you’re on a tight deadline.”

The *Media Guide* provides detailed listings for more than 100 fuel cell developers and manufacturers, key component suppliers, research institutions and governmental agencies. Each listing provides press and general information contacts, web site addresses, and a brief description of the company’s fuel cell activities.

Journalists interested in receiving a free copy of the *Media Guide* may call the Council at (202) 293-5500 or email us at [bernie@usfcc.com](mailto:bernie@usfcc.com) with your name, affiliation and mailing address. There is a \$20.00 charge for non-media wishing to receive a copy. A check may be sent to the U.S. Fuel Cell Council, 1625 K Street, NW, Suite 725, Washington, DC 20006.

The U.S. Fuel Cell Council was formed in 1998 and is open to anyone who shares our goal of fuel cell commercialization in the United States. Its members include producers of fuel cells, as well as major suppliers, fuel providers, government agencies and customers. For more information on USFCC, visit our web site at [www.usfcc.com](http://www.usfcc.com).
