### **Journalists: Put the Leaders of the Fuel Cell Industry at Your Fingertips**

(Washington D.C. – January 12, 2004) The third edition of the U.S. Fuel Cell Council's *Media Guide* is now available, featuring detailed listings for more than 110 key players in the fuel cell industry.

“Not a day goes by without a story about fuel cells and the hydrogen economy in a major publication or on the air. Our members are ready to respond to journalists with information on their activities,” said USFCC Executive Director Robert Rose. “Our *Media Guide* tells journalists who the industry leaders are, and helps them get in touch with the right people when they’re on a tight deadline.”

The *Media Guide* provides detailed listings for more than 110 fuel cell developers and manufacturers, key component suppliers, fuel providers, end users, research institutions and governmental agencies. Each listing provides press and general information contacts, web site addresses, and a brief description of the company’s fuel cell activities.

Journalists interested in receiving a free copy of the *Media Guide* may call the Council at (202) 293-5500 or email us at [germain@usfcc.com](mailto:germain@usfcc.com) with your name, affiliation and mailing address. Please specify whether you are interested in the “hard copy” or “CD-ROM” version.

*There is a \$20.00 charge for non-media wishing to receive a copy. A check payable to the “US Fuel Cell Council” should be sent with your request and contact information to: USFCC Media Guide, 1625 K Street, NW, Suite 725, Washington, DC 20006 USA. **NOTE: WE ARE UNABLE TO ACCEPT CREDIT CARDS.***

The US Fuel Cell Council is the voice of the fuel cell industry. For more information on USFCC, visit our web site at [www.usfcc.com](http://www.usfcc.com).
